

2014 CTF G. LANGSNER MEMORIAL SCHOLARSHIP

JEREMY LANIKSMITH

I just want to say that I cannot express how much this award means to me. I have been struggling to keep up with bills this summer while volunteering at the Structures Construction Department in District 11. This will be more than enough to catch me up and even stay ahead of my finances. Along with that I am extremely grateful that a professional organization such as Caltrans has entrusted me with this great honor. I can say that I will not disappoint as I intend to keep doing well in school and continue to pursue a career in Transportation. I hope that one day I will reach my goal of becoming a Professional Engineer and it would be a dream come true if I were able to eventually get hired on as an Engineer at Caltrans. Again, I would like to reiterate how much this has motivated me and given me inspiration to continue working hard and also to keep striving to reach my goal. Thank you so, so much for the award I will never forget it!
